Description:

1. According to Article 60, Paragraph 2 of the Electricity Act and Article 10 of the Regulations for the Management of Electricity Consumption Sites and Dedicated Electrical Personnel, the person in charge of the electricity consumption site shall supervise and work together with the dedicated electrical personnel to inspect the managed power equipment at least once every six months.
2. The times of power outage specified above refer to the total amount of time required for completing all work in the listed areas, which will be attended to in order. In case of early completion of work in individual areas/buildings, power will be restored ahead of schedule. However, delay of schedule may occur if unexpected difficulty were to arise without further notice.
3. In order to avoid damage caused by the surge upon restoration of power, please remember to turn off and unplug your electrical appliances beforehand.
4. To minimize the inconvenience caused by the power outage, all units are encouraged to have an alternative power source ready (such as an UPS or a power generator).
5. We apologize for any inconvenience this may cause you.

※ Please direct your questions to Mr. LEE CHUNG HSIN at the Division of Administrative Matters, Office of General Affairs (ext. 1127). Thank you.
